WXZTE's Transceiver products are fully compliant with Ethernet , SONET/SDH/OTN and PON standards . They feature outstanding performance over extended voltage and temperature ranges, while minimizing jitter, electromagnetic interference (EMI) and power dissipation.

10G SFP+ 10km 1310nm

PRODUCT FEATURES
➢ Hot pluggable
➢ Duplex LC receptacle
➢ SFP+ Multi-Source Agreement compliant
➢ Digital Diagnostic Monitoring support
➢ Compliant with IEEE802.3ae 10GBASE-LR
➢ 1310nm DFB transmitter and PIN receiver for 10km reach
➢ Single +3.3V power supply
➢ Low power consumption less than 1.0W
➢ -5 to 70°C operating case temperature

APPLICATIONS
➢ 10GBASE-LR/LW 10G Ethernet
➢ 1200-SM-LL-L 10G Fibre Channel

10G SFP+ 300m 850nm

PRODUCT FEATURES
➢ Hot pluggable
➢ Duplex LC receptacle
➢ SFP+ Multi-Source Agreement compliant
➢ Digital Diagnostic Monitoring support
➢ Compliant with IEEE802.3ae 10GBASE-SR
➢ 850nm VCSEL transmitter and PIN receiver for 300m reach
➢ Single +3.3V power supply
➢ Low power consumption less than 1.0W
➢ -5 to 70°C operating case temperature

APPLICATIONS
➢ 10GBASE-SR/SW 10G Ethernet
➢ 1200-MX-SN-I 10G Fibre Channel
