

## 1x4 PM Splitter

### 1. Features:

- \* Good Uniformity and Low Insertion loss
- \* High Extinction Ratio
- \* Wideband

### 2. Applications:

- \* Optical gyro
- \* Optical sensors
- \* Polarization maintaining fiber laser

### 3. Specifications:

Parameter	1×4
Fiber type	1550 PM fiber or customize
Operating wavelength (nm)	1260~1620
Insertion loss (dB)	≤7.5
Uniformity (dB)	≤0.6
ER (dB)	≥20
Directivity (dB)	≥55
Return loss (dB)	≥50
Pigtail type	250μm bare fiber or 0.9mm loose tube
Operating temperature( )	-40~85
Storage temperature( )	-40~85
Package Dimension (L×W×H)(mm)	40×4×4

Note: Above specifications are for device without connector.

### 4. Product Ordering Information:

PM -X\*X- X-X-XX/XXX-XX\*XX
